***Examiner's Amendment***

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The following changes have been made to the subject application:

In claim 15, change the status of the claim from "(Allowed)" to --(Previously Presented)-- because "Allowed" is improper format.

The Examiner's amendment has been made in order to place the application in a condition for allowance.

2. The following is an examiner's statement of reasons for allowance:

The cited art of record fails to teach a patch antenna comprising a patch conductor, a ground conductor, a dielectric substrate having a first surface and a second surface situated opposite the first surface, and further having a first thickness and a second thickness situated adjacent the first thickness, and an abrupt step in thickness situated between the first thickness and the second thickness, the first thickness being different from the second thickness, wherein the abrupt step in thickness is situated in alignment with the patch conductor between the first end and the second end of the patch conductor and offset from and in non-alignment with the center of the patch conductor; and wherein the patch antenna exhibits a radiation pattern which is

asymmetric along the length of the antenna due to the abrupt step in thickness of the dielectric substrate in combine with other features as defined in claim 15.
